

OPEN WATER SWIMMING SAFETY GUIDELINES

Updated July 13, 2020-07-13

In consultation with our ten Provincial Section members and in light of the changing rules and regulations related to COVID-19 across the country, Swimming Canada has retracted the Open Water Swimming Safety Guidelines. Each Provincial Section has the authority to determine Open Water guidelines within their jurisdictions and Swimming Canada will support the provinces in the development of these documents. Please contact your Provincial Section for additional information.
