INTRODUCTION

Swimming Canada's goal is to conduct well organized, uniform, and consistently operated swim meets for the benefit of all swimmers. The objective of all meets is fair and fast swimming. When swimmers arrive at the meet site, they have had months and years of preparation with specific goals in mind and must be allowed to achieve the highest level of performance.

To advance this goal and these objectives Swimming Canada has adopted World Aquatics rules for all meets held in Canada. These are supplemented by specific Canadian interpretations and policies as highlighted in PART I and PART II of this handbook. (Swimming Canada supplemental information is included in the World Aquatics text but rule numbers are prefixed with a "C".) Where a conflict occurs, the Canadian interpretation shall apply. Provincial-level meets shall use World Aquatics rules and will follow the same format (to a lesser degree) as Swimming Canada meets.

All the information in this handbook applies to all Swimming Canada/provincially sanctioned meets.

For all World Aquatics meets and Cups assigned to Canada, the World Aquatics Bureau, through its Canadian member federation, Aquatics Canada Aquatiques (ACA), or its designate Swimming Canada, in conjunction with the host section and club, appoints a competition management committee for each meet. This committee shall be responsible for all management and operating decisions of the specific Meet.

Swimming Canada competitions may include swimming Trials, the national and youth championships, special invitational meets, games, and any World Aquatics meets held in Canada (World Cups, Pan-Pacific, World Long Distance, and Masters World Championships) and the special provisions that apply to their conduct are included in Appendix A.

C2.1.2.1 The Referee shall have the authority to call off or postpone (to a future time and date) all or any portion of a meet or any event even though it has actually started, provided the meet or event cannot be conducted or completed in a satisfactory manner or in fairness to the swimmers. If an event is stopped or postponed after having started, it shall be conducted at a future time with only the swimmers who were entered in the first instance. If a meet is postponed to another day, the program should be continued except for those heats which were completed. The Referee shall determine if any events are to be re-swum.

2.1.3 When using Finish Judges without three (3) digital watches, the Referee shall determine placing where necessary. Automatic Officiating Equipment, if available and operating, shall be consulted as stated in II.13.

A second-long whistle shall bring the backstroke and medley relay swimmer immediately to the starting position. When the swimmers and officials are prepared for the start, the

Referee shall gesture to the Starter with a stretched out arm, indicating that the swimmers are under the Starter's control. The stretched out arm shall stay in that position until the start is given.

2.1.6 A disqualification for initiating the start before the starting signal must be observed and confirmed by both the Starter and the Referee. When Automatic Officiating Equipment is available, it may be used to verify the disqualification.

2.1.7 The Referee shall disqualify any swimmer for any other violation of the rules that they personally observe. The Referee may also disqualify any swimmer for any violation reported to them by other authorized officials. All disqualifications are subject to the decision of the Referee.

2.1.8 All potential infractions shall be verbally reported to the Referee. Once confirmed by the Referee, a signed disqualification card shall be completed by the reporting official, detailing the event, lane number and the infraction.

3. SEEDING OF HEATS, SEMI-FINALS, AND FINALS

The starting stations for all events in Olympic Games, World Championships, Regional Games and other World Aquatics competitions shall be by seeding as follows:

3.1 Heats

3.1.1 The best competitive times of all entrants for the announced qualifying period prior to the entry deadline of the competition, shall be submitted on entry forms or online, as requested, and listed in order of time by the Management Committee. Swimmers who do not submit official recorded times shall be considered the slowest and shall be placed at the end of the list with a 'no time'. Placement of swimmers with identical times or of more than one swimmer without times shall be determined by draw. Swimmers shall be placed in lanes according to the procedures set forth in II.3.1.2 below. Swimmers shall be placed in trial heats according to submitted times in the following manner:

3.1.1.1 If one heat, it shall be seeded as a final and swum only during the final session.

3.1.1.2 If two heats, the fastest swimmer shall be seeded in the second heat, next fastest in the first heat, next fastest in the second heat, next in the first heat, etc.

3.1.1.3 If three heats, except 400m, 800m, and 1500m events, the fastest swimmer shall be placed in the third heat, next fastest in the second, next fastest in the first. The fourth fastest swimmer shall be placed in the third heat, the fifth in the second heat and the sixth fastest in the first heat, the seventh fastest in the third heat, etc.

3.1.1.4 If four or more heats, except the 400m, 800m, and 1500m events, the last three heats of the event shall be seeded in accordance with II.3.1.1.3 above. The heat preceding the last three heats shall consist of the next fastest swimmers; the heat preceding the last four shall consist of the next fastest swimmers, etc. Lanes shall be assigned in descending order of submitted times within each heat, in accordance with the pattern outlined in II.3.1.2 below.

3.1.1.5 For 400m, 800m and 1500m events, the last two

heats of the event shall be seeded in accordance with II.3.1.1.2.

C3.1.1.5.1 Seeding information for the 400m, 800m, and 1500m events shall be clearly stated in the Meet Information Package.

3.1.1.6 Exception: When there are two or more heats in an event, there shall be a minimum of three swimmers seeded into any one preliminary heat, but subsequent scratches may reduce the number of swimmers in such heat to less than three.

3.1.1.7 When a ten (10) lane pool is available and equal times are established for the 8th place in the heats of events in excess of 200m and including relay events, lane 0 will be used. A random draw will be held to determine which competitor is allocated in lane 8 and lane 0. In case of three (3) equal times for 8th place, lane 9 and 0 will be used with a random draw for lane 8, 9, and 0. In the event that there are more than three (3) competitors or teams having equal times for 8th place in the heats or semi-finals, a swim-off may be held.

3.1.1.8 Where a 10 lane pool is not available, II.3.2.3 will apply.

C3.1.1.9 Qualifying times if required, shall be clearly listed in the Meet Information Package.

C3.1.1.10 Seeding procedures and conversion of times information, if conversions are permitted, shall be clearly stated in the Meet Information Package.

3.1.2 Except for 50 metre events in 50 metre pools, assignment of lanes shall be (number 1 lane being on the right side of the pool, 0 when using pools with 10 lanes, when facing the course from the starting end) by placing the fastest swimmer or team in the center lane in a pool with an odd number of lanes,

or in lane 3 or 4 respectively in pools having 6 or 8 lanes. In pools using 10 lanes the fastest swimmer shall be placed in lane 4. The swimmer having the next fastest time is to be placed on his/her left, then alternating the others to right and left in accordance with the submitted times. Swimmers with identical times shall be assigned their lane positions by draw within the aforesaid pattern.

3.1.3 When 50 metre events are contested in 50 metre pools, the races may be swum, at the discretion of the Management Committee, either from the regular starting end to the turning end or from the turning end to the starting end, depending upon such factors as existence of adequate Automatic Equipment, Starter's position, etc. The Management Committee should advise swimmers of their determination well before the start of the competition. Regardless of which way the race is swum, the swimmers shall be seeded in the same lanes in which they would be seeded if they were both starting and finishing at the starting end.

3.2 Semi-finals and Finals

3.2.1 In the semi-finals heats shall be assigned as in II.3.1.1.2.

3.2.2 Where no preliminary heats are necessary, lanes shall be assigned in accordance with II.3.1.2 above. Where preliminary heats or semi-finals have been held, lanes shall be assigned as in II.3.1.2 based, however, on times established in such heats.

3.2.3 In the event that swimmers from the same or different heats have equal times registered to 1/100 second for either the eighth/tenth place or sixteenth/twentieth place depending on the use of 8 or 10 lanes, there may be a swim-off to determine which swimmer shall advance to the appropriate finals. Such swim-off shall take place after all involved swimmers have completed their heats at a time agreed between the event management and the parties involved. Another swim-off may take place if equal times are registered again. If required, a swim-

off will take place to determine 1st and 2nd reserve if equal times are recorded.

C3.2.3.1 Swimmers may scratch from a swim-off without penalty, in which case they shall be given the ranking next in line and shall be eligible for points, if any, for the re-assigned position.

C3.2.3.2 Times made in a swim-off may count as records, but they shall not elevate any of the swimmers beyond the highest qualifying position in dispute. Times achieved in a swim-off shall be recorded in the official results.

C3.2.3.3 Any disqualification in a swim-off shall apply to the swim-off only. For example, any disqualified swimmer shall not lose the right to be an alternate for that “A” final or “B” final, or to compete in the “B” final (when applicable).

3.2.4 Where one or more swimmers scratch from a semi-final or final reserves will be called in order of classifications in heats or semi-finals. Whenever possible, the event or events must be re-seeded and supplementary sheets must be issued detailing the changes or substitutions, as prescribed in II.3.1.2.

C3.2.4.1 When scratches are received after the scratch deadline, reseeding is not necessary. Alternates are placed as applicable.

3.2.5 For heats, semi-finals and finals, swimmers shall report to the First Call Room at a time determined by the event management. After inspection, swimmers proceed to the final call room.

3.3 In other competitions, the draw system will be used for assigning lane positions.

3.4 In the World Aquatics Swimming Championships (25m) and World Aquatics Junior Swimming Championships, the 800m Freestyle and the 1500m Freestyle may at the discretion of the Bureau be conducted on a timed final basis with the fastest

heat only conducted during the finals session.

In distances of 50m, 100m and 200m, heats, semi-finals and finals will be held. At the World Aquatics Swimming Championships (25m) and World Aquatics Junior Swimming Championships events of 200m and above only heats and finals will take place.

C3.5 Timed Final Events

Timed finals are those in which each swimmer swims only once for time. The final placing of all swimmers is determined by their times. Events to be conducted as timed finals must be so designated in the Meet Information Package.

C3.5.1 Timed finals should normally be swum “slowest to fastest”, with the swimmers seeded according to their submitted times. However, the 800m and 1500m events may be swum “fastest to slowest” in alternating event order (female/male).

C3.5.2 Individual freestyle events of 800m or longer may be conducted with more than one swimmer per lane and must be so designated in the Meet Information Package.

C3.6 Time Trials

C3.6.1 Class One Sanctioned Time Trial (Sanctioned Record attempts)

- (i) A Class One Time Trial is reserved for sanctioned record attempts. Such time trials shall be advertised at least three days prior to the attempt in order for a record to be recognized or accepted;
- (ii) No advertising is necessary for record attempts at sanctioned meets;
- (iii) The Time Trial shall be held in public and shall meet the minimum requirement of a PS;
- (iv) No coaching is permitted during the record attempt.

C3.6.2 Class Two Sanctioned Time Trial

- (i) A Class Two Time Trial is a swimmer's attempt to achieve a time which may qualify the swimmer for entry into future meets;
- (ii) Class Two Time Trials may be conducted on a less stringent basis than sanctioned meets. For example, several swimmers may swim at the same time, they need not be doing the same event or swimming the same stroke; they need not be the same gender, and two Timekeepers per lane are sufficient;
- (iii) Individual freestyle events of 800m or longer may be conducted with more than one swimmer per lane;
- (iv) Records shall not be accepted from Class Two Time Trials.

C3.7 Scratches, Substitutions, & Deck Entries (applies to local Provincial Meets)

C3.7.1 Once entered in an event, a swimmer who is not an alternate, may only withdraw or "scratch" from that event without penalty according to rules set down by the Provincial Section or stated in the Meet Information Package.

C3.7.2 Heats & Finals: Scratch Deadlines shall be clearly stated in the Meet Information Package.

Timed Final Events: For individual events or relays that are timed finals, the Scratch Deadlines shall be clearly stated in the Meet Information Package.

C3.7.3 Penalties

Penalties for failure by a swimmer to scratch from preliminaries, finals, or timed final events shall be clearly stated in the Meet Information Package.

C3.7.4 'Name Change' Deadlines

'Name Change' deadlines for relays should be clearly stated in the Meet Information Package and announced at the Coaches

Technical Meeting.

C3.7.5 Deck Entries may be allowed for registered swimmers, shall be clearly stated in the Meet Information Package and shall be classified as Exhibition swims.

4. THE START

4.1 The start in freestyle, breaststroke, butterfly and individual medley races shall be with a dive. On the long whistle (II.2.1.5) from the Referee the swimmers shall step onto the starting platform and remain there. On the Starter's command "take your marks", they shall immediately take up a starting position with at least one foot at the front of the starting platforms. The position of the hands is not relevant. When all swimmers are stationary, the Starter shall give the starting signal.

C4.1.1 Where starting platforms are not available or in use (as per II.16.1.4 and/or C16.1.4.1), swimmers may start from the edge of the pool or from the bulkhead. On the long whistle from the Referee the swimmers shall step forward to the edge of the pool and remain there. On the Starter's command "take your marks", they shall immediately take up a starting position with at least one foot at edge of the pool or bulkhead. The position of the hands is not relevant. When all swimmers are stationary, the Starter shall give the starting signal.

C4.1.2 A swimmer may be permitted to start in the water but shall have at least one hand and one foot in contact with the end wall and poolside, as appropriate, until the starting signal is given. Standing on the bottom is prohibited.

4.2 The start in backstroke and medley relay races shall be from the water. At the Referee's first long whistle (II.2.1.5), the swimmers shall immediately enter the water. At the Referee's second long whistle the swimmers shall return without undue delay to the starting position (II.6.1). When all swimmers have assumed their starting positions, the Starter shall give the command "take

your marks”. When all swimmers are stationary, the Starter shall give the starting signal.

- 4.3 In Olympic Games, World Championships and other World Aquatics events the command “Take your marks” shall be in English and the start shall be by multiple loudspeakers, mounted one at each starting platform.
- 4.4 Any swimmer initiating a start before the signal may be disqualified. If the starting signal sounds before the disqualification is declared, the race shall continue and the swimmer or swimmers shall be disqualified upon completion of the race. If the disqualification is declared before the starting signal, the signal shall not be given, but the remaining swimmers shall be called back and start again. The Referee repeats the start procedure beginning with the long whistle (the second one for backstroke) as per II.2.1.5.

C4.4.1 When swimmers are disqualified for initiating a start before the signal under this rule, the swimmer(s) shall not be allowed to swim under protest. If a protest is made and upheld by a Jury of Appeal, the swimmer(s) concerned shall swim on their own at a time determined by the Referee and the coaches concerned.

5. FREESTYLE

- 5.1 Freestyle means that in an event so designated the swimmer may swim any style, except that in individual medley or medley relay events, freestyle means any style other than backstroke, breaststroke or butterfly.
- 5.2 Some part of the swimmer must touch the wall upon completion of each length and at the finish.
- 5.3 Some part of the swimmer must break the surface of the water throughout the race, except it shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each

turn. By that point, the head must have broken the surface.

6. BACKSTROKE

- 6.1** Prior to the starting signal, the swimmers shall line up in the water facing the starting end, with both hands holding the starting grips. Standing in or on the gutter, or bending the toes over the lip of the gutter, is prohibited. When using a backstroke ledge at the start, at least one toe of each foot must be in contact with the end wall or face of the touchpad. Bending the toes over the top of the touchpad is prohibited.
- 6.2** At the signal for starting and after turning, the swimmer shall push off and swim upon his/her back throughout the race except when executing a turn as set forth in II.6.4. The normal position on the back can include a roll movement of the body up to, but not including, 90 degrees from horizontal. The position of the head is not relevant.
- 6.3** Some part of the swimmer must break the surface of the water throughout the race except that once some part of the head of the swimmer has passed the 5 metres mark immediately prior to reaching for the finish, the swimmer may be completely submerged. It is also permissible for the swimmer to be completely submerged during the turn, and for a distance of not more than 15 metres after the start and each turn. By that point the head must have broken the surface.
- 6.4** When executing the turn there must be a touch of the wall with some part of the swimmer's body. During the turn the shoulders may be turned over the vertical to the breast after which an immediate continuous single arm pull or immediate continuous simultaneous double arm pull may be used to initiate the turn. The swimmer must have returned to the position on the back upon leaving the wall.
- 6.5** Upon the finish of the race the swimmer must touch the wall while on the back.

7. BREASTSTROKE

- 7.1** After the start and after each turn, the swimmer may take one arm stroke completely back to the legs during which the swimmer may be submerged. At any time prior to the first breaststroke kick after the start and after each turn a single butterfly kick is permitted. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke.
- 7.2** From the beginning of the first arm stroke after the start and after each turn, the body shall be on the breast. It is not permitted to roll onto the back at any time except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall. From the start and throughout the race, the stroke cycle must be one arm stroke and one leg kick in that order. All movements of the arms shall be simultaneous without alternating movement.
- 7.3** The hands shall be pushed forward together from the breast on, under, or over the water. The elbows shall be under the water except for the final stroke before the turn, during the turn and for the final stroke at the finish. The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and each turn.
- 7.4** During each complete cycle, some part of the swimmer's head must break the surface of the water. All movements of the legs shall be simultaneous without alternating movement.
- 7.5** The feet must be turned outwards during the propulsive part of the kick. Alternating movements or downward butterfly kicks are not permitted except as in II.7.1. Breaking the surface of the water with the feet is allowed unless followed by a downward butterfly kick.
- 7.6** At each turn and at the finish of the race, the touch shall be

made with both hands separated* and simultaneously at, above, or below the water level. At the last stroke before the turn and at the finish an arm stroke not followed by a leg kick is permitted. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch.

* "Separated" means that the hands cannot be stacked one on top of the other. It is not necessary to see space between the hands. Incidental contact at the fingers is not a concern.

8. BUTTERFLY

8.1 From the beginning of the first arm stroke after the start and after each turn, the body shall be kept on the breast. It is not permitted to roll onto the back at any time, except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall.

8.2 Both arms must be brought forward simultaneously over the water and brought backward simultaneously under the water throughout the race, subject to 11.8.5.

8.3 All up and down movements of the legs must be simultaneous. The legs or the feet need not be on the same level, but they shall not alternate in relation to each other. A breaststroke kicking movement is not permitted.

8.4 At each turn and at the finish of the race, the touch shall be made with both hands separated** and simultaneously, at, above or below the water surface.

** "Separated" means that the hands cannot be stacked one on top of the other. It is not necessary to see space between the hands. Incidental contact at the fingers is not a concern

8.5 At the start and at turns, a swimmer is permitted one or more leg kicks and one arm pull under the water, which must bring

him/her to the surface. It shall be permissible for a swimmer to be completely submerged for a distance of not more than 15 metres after the start and after each turn. By that point, the head must have broken the surface. The swimmer must remain on the surface until the next turn or finish.

9. MEDLEY SWIMMING

11.1.2.4 An Athlete may be permitted to start beside the starting platform.

11.1.2.5 An Athlete may be permitted to take up a sitting position on the starting platform.

11.1.2.6 An Athlete may be permitted to start in the water but is required to have one hand in contact with the starting place until the starting signal is given. Standing in or on the gutter or on the bottom is prohibited.

11.1.2.7 Athletes in Sport Classes S/SB/SM1-3 athletes are permitted to have their foot/feet or the end of their limb(s) held to the wall, until the starting signal is given. Giving momentum to the Athlete at the start is not permitted.

11.1.2.8 Where an Athlete is unable to grip the starting place in a water start, the Athlete may be assisted by a Support Staff and/or starting device. The device shall be cleared and deemed safe by the World Para Swimming appointed Officials prior to the commencement of the Competition. Giving momentum to the Athlete at the start is not permitted. The Athlete shall have part of the body in contact with the wall until the starting signal is given.

11.1.2.9 To prevent abrasion, one layer of towel, or the like, may be placed on the starting platform.

11.1.3 The start in Backstroke, 75m/150m individual Medley Events and Medley Relay Events shall be from the water. At the Referee's first long whistle (see Rule 11.1.1), the Athletes

shall immediately enter the water. At the Referee's second long whistle the Athletes shall return without undue delay to the starting position. When all Athletes have taken their starting positions, the Starter shall give the command "take your marks". When all Athletes are stationary, the Starter shall give the starting signal.

11.1.4 In IPC Games, World Para Swimming Championships and WPS Sanctioned Competitions, the command "take your marks" shall be in English and the start shall be by multiple loudspeakers, mounted one (1) at each starting platform.

11.1.5 Any Athlete initiating a start before the signal may be disqualified. If the starting signal sounds before the disqualification is declared, the race shall continue and the Athlete(s) shall be disqualified upon completion of the Event. If the disqualification is declared before the starting signal, the signal shall not be given, but the remaining Athletes shall be called back and start again. The Referee repeats the starting procedure beginning with the long whistle (the second one for backstroke) as per Rule 11.1.1.

11.1.6 For Athletes with a hearing impairment, a strobe/starting light will be provided. If an Athlete requires additional arm signals by the Starter, this must be requested by the responsible Team Leader at the Technical/Team Leader Meeting.

11.1.7 In the case of an Athlete in Sport Class S1-10/SB1-9/SM1-10 and S/SB/SM14 who additionally has a hearing impairment, Support Staff shall be permitted to convey the starting signal to the Athlete by the use of a non-verbal instruction when no starting light is available.

11.1.8 In the case of an Athlete with a Vision Impairment who additionally has a hearing impairment, Support Staff shall be permitted to convey the starting signal to the Athlete by the use of a non-verbal instruction.

11.2 FREESTYLE

11.2.1 Freestyle means that in an Event so designated the Athlete may swim any style, except in individual Medley or Medley Relay Events where Freestyle means any style other than Backstroke, Breaststroke or Butterfly. For the 75m or 150m individual Medley, Freestyle means any style other than Backstroke or Breaststroke.

11.2.2 Some part of the Athlete must touch the wall upon completion of each length and at the finish.

11.2.3 Some part of the Athlete must break the surface of the water throughout the race, except it shall be permissible for the Athlete to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point, the Athlete's head must have broken the surface.

11.2.3.1 For Athletes in Sport Classes S1-5, during each complete stroke cycle some part of the Athlete must break the surface of the water. One (1) stroke cycle is defined as one (1) full rotation of the shoulder joint(s) and/or one (1) complete up and down movement of the hip joint(s).

11.2.4 Standing on the bottom during Freestyle Events or during the Freestyle portion of Medley Events shall not disqualify an Athlete, but they shall not walk.

11.3 BACKSTROKE

11.3.1 Prior to the starting signal, the Athletes shall line up in the water facing the starting end, with both hands holding the starting grips. Standing in or on the gutter or bending the toes over the lip of the gutter is prohibited. When using a backstroke ledge at the start, at least one (1) toe of both feet (or parts thereof) must be in contact with the end wall or face of the touchpad. Bending the toes over the top of the touch pad is prohibited.

11.3.1.1 Where an Athlete is unable to hold both the starting grips, it is permissible to hold the grips with one (1) hand only.

11.3.1.2 Where an Athlete is unable to hold either starting grip, it is permissible to hold the end of the pool.

11.3.1.3 Where an Athlete is unable to hold the starting grips or end of the pool, the Athlete may be assisted by a Support Staff or starting device. The device shall be cleared and deemed safe by World Para Swimming representative prior to the commencement of the Competition. Giving momentum to the Athlete at the start is not permitted. The Athlete shall have part of the body in contact with the wall until the starting signal is given.

11.3.2 At the signal for starting and after turning the Athlete shall push off and swim upon his back throughout the race except when executing a turn, as set forth in Rule 11.3.4. The position on the back may include a roll movement of the body up to, but not including 90 degrees from horizontal. The position of the head is not relevant.

11.3.3 Some part of the Athlete must break the surface of the water throughout the race, except that once some part of the head of the athlete has passed the 5 metres mark immediately prior to reaching for the finish, the Athlete may be completely submerged. It is permissible for the Athlete to be completely submerged during the turn and for a distance of not more than 15 metres after the start and each turn. By that point the Athlete's head must have broken the surface.

11.3.3.1 For Athletes in Sport Classes S1-5, during each complete stroke cycle some part of the Athlete must break the surface of the water. One (1) stroke cycle is defined as one (1) full rotation of the shoulder joint(s) and/or one (1) complete up and down movement of the hip joint(s).

11.3.4 When executing the turn there must be a touch of the wall with some part of the Athlete's body. During the turn the shoulders may be turned over the vertical to the breast after which an immediate continuous single arm pull or an immediate continuous simultaneous double arm pull may be used to initiate the turn. The Athlete must have returned to the position on the back upon leaving the wall.

11.3.5 For Athletes who have no arms or use of their arms during the turn, once the body has left the position on the back, the turn shall be initiated. The Athlete must have returned to a position on the back upon leaving the wall.

11.3.6 Upon the finish of the race the Athlete must touch the wall while on the back.

11.4 BREASTSTROKE

11.4.1 After the start and after each turn, the Athlete may take one (1) arm stroke completely back to the legs during which the Athlete may be submerged. At any time prior to the first Breaststroke kick after the start and after each turn, a single Butterfly kick is permitted. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke.

11.4.1.1 After the start and after each turn, an Athlete who is unable to push off with the leg(s), may perform one (1) arm stroke that may not be simultaneous or on the horizontal plane to attain the breast position.

11.4.2 From the beginning of the first arm stroke after the start and after each turn, the body shall be on the breast. It is not permitted to roll onto the back at any time except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall. From the start and throughout the race the stroke cycle must be one (1) arm stroke and one (1) leg kick in that order. All

movements of the arms shall be simultaneous without alternating movement.

11.4.2.1 When an Athlete does not have any legs or arms or parts thereof, either the kick or the respective arm stroke shall constitute a complete stroke cycle. The position on the breast may include a roll movement of the body up to, but not including ninety (90) degrees from horizontal. The position of the head is not relevant.

11.4.3 The Athlete's hands shall be pushed forward together from the breast on, under, or over the water. The elbows shall be under water except for the final stroke before the turn, during the turn and for the final stroke at the finish. The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and each turn.

11.4.3.1 Athletes with Vision Impairment approaching a turn or finish may push their hands forward from any point in the stroke cycle immediately after they have been tapped.

11.4.4 During each complete cycle, some part of the Athlete's head must break the surface of the water. All movements of the legs shall be simultaneous without alternating movement.

11.4.4.1 An Athlete with lower limb impairment must show a simultaneous intent to kick throughout the race or trail/drag the leg(s) throughout the race.

11.4.5 The feet must be turned outwards during the propulsive part of the kick. Alternating movements or downward Butterfly kicks are not permitted except as in Rule 11.4.1. Breaking the surface of the water with the feet is permitted unless followed by a downward Butterfly kick.

11.4.5.1 An Athlete who is unable to use one or both legs and/or foot/feet to gain propulsion shall not be required to

turn the affected foot/feet outwards during the propulsive part of the kick.

11.4.6 At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously at, above, or below the water level. At the last stroke before the turns and at the finish an arm stroke not followed by a leg kick is permitted. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch. For the purposes of this Rule, “separated” means that the hands cannot be stacked one on top of the other. It is not necessary to see space between the hands. Incidental contact at the fingers is permitted.

11.4.6.1 At each turn and the finish of the race, where an Athlete has different arm lengths only the longer arm must touch but both arms must be stretched forward simultaneously.

11.4.6.2 At each turn and the finish of the race, an Athlete with upper limbs which are too short to stretch above the head shall touch with any part of the upper body.

11.4.6.3 At each turn and the finish of the race, where an Athlete can use only one (1) arm for the stroke cycle, the Athlete must touch with the one (1) hand/arm that is used for the stroke. Where an Athlete’s impairment results in only one (1) arm being used, the non-functioning arm shall be dragged or stretched forward.

11.4.6.4 At each turn and the finish of the race, where the Athlete who uses both arms but has restriction in the shoulder/elbow, only the longer arm must touch, but both arms must be stretched forward simultaneously.

11.4.6.5 Athletes in Sport Classes SB11-12 may have difficulty making a simultaneous touch at the turn and the finish if they are restricted due to contact with the lane rope.

The Athlete shall not be disqualified provided that no advantage was gained.

11.5 BUTTERFLY

11.5.1 From the beginning of the first arm stroke after the start and each turn, the Athlete's body shall be kept on the breast. It is not permitted to roll onto the back at any time except at the turn after the touch of the wall where it is permissible to turn in any manner as long as the body is on the breast when leaving the wall.

11.5.1.1 After the start and after each turn, an Athlete who is unable to push off with the leg(s) may perform one (1) arm stroke that may not be simultaneous to attain the breast position.

11.5.2 Both arms must be brought forward simultaneously over the water and brought backward simultaneously under the water throughout the race, subject to Rule 11.5.5. For the purposes of this Rule, "the entire arm from the shoulder to the wrist", not just part of it, must recover over the water. There is no requirement to see space between the arm and water.

11.5.2.1 Athletes in Sport Classes S11-12 may have difficulty bringing both arms forward simultaneously if they are restricted due to contact with the lane rope. The Athlete shall not be disqualified provided that no advantage was gained.

11.5.2.2 Athletes with a Vision Impairment approaching a turn or finish may bring their arms forward under the water immediately after they have been tapped.

11.5.2.3 Where part of an arm is missing, the remaining part of the arm shall be brought forward over the water simultaneously with the other arm.

11.5.2.4 Where an Athlete can only use one (1) arm for the arm stroke, the arm shall be brought forward over the

water. The position of the body must remain in line with the water surface. Where an Athlete's impairment results in only one (1) arm being used the non-functioning arm shall be dragged or stretched forward. This rule ensures an Athlete who competes using only one arm for the stroke stays on the breast in line/parallel to the water surface, as Butterfly was originally intended and are not swimming on their side, with a dropped shoulder. For the purposes of this Rule "the body" is the trunk of an Athlete, including the shoulders.

11.5.2.5 At the turn and finish, Athletes with no leg function may perform a half stroke with the arm(s) recovering forward under the surface of the water, in order to contact the wall.

11.5.3 All up and down movements of the legs must be simultaneous. The legs or the feet need not be on the same level, but no alternating movements are permitted. A Breaststroke kicking movement is not permitted.

11.5.3.1 When an Athlete's impairment results in only one (1) leg being used, the non-functional leg shall drag. For the purposes of this Rule "shall drag" means that the leg is not providing any propulsion but may follow the undulating hip line and appear to be alternating.

11.5.4 At each turn and at the finish of the race, the touch shall be made with both hands separated and simultaneously, at, above or below the water surface. For the purposes of this Rule "separated" means that the hands cannot be stacked one on top of the other. It is not necessary to see space between the hands. Incidental contact at the fingers is permitted.

11.5.4.1 At each turn and the finish of the race where an Athlete has different arm lengths only the longer arm must touch, but both arms must be stretched forward simultaneously.

11.5.4.2 At each turn and the finish of the race, an Athlete with no or non-functional upper limbs or upper limbs too short to stretch above the head, shall touch with any part of the upper body.

11.5.4.3 At each turn and the finish of the race, where an Athlete can only use one (1) arm, the athlete must touch with the one (1) hand/arm that is used for the stroke.

11.5.4.4 At each turn and the finish of the race, where the Athlete who uses both arms but has restriction in the shoulder/elbow only the longer arm must touch, but both arms must be stretched forward simultaneously.

11.5.4.5 Athletes in Sport Classes S11-12 may have difficulty making a simultaneous touch at the turn and finish if they are restricted due to contact with the lane rope. The Athlete shall not be disqualified provided that no advantage was gained.

11.5.5 At the start and at turns, an Athlete is permitted one (1) or more leg kicks and one (1) arm pull under the water, which must bring the Athlete to the surface. It is permitted for an Athlete to be completely submerged for not more than 15 metres after the start and after each turn. By that point, the head must have broken the surface. The Athlete must remain on the surface until the next turn or finish.

11.5.5.1 For Athletes in Sport Classes S1-5, some part of the Athlete must break the surface of the water during one (1) full rotation of the shoulder joint(s) and/or one (1) complete up and down movement of the hip joint(s).

11.6 MEDLEY SWIMMING

11.6.1 In individual Medley Events, the Athlete covers the four (4) swimming strokes in the following order: Butterfly, Backstroke, Breaststroke and Freestyle. Each of the strokes must be used for one quarter (1/4) of the total distance. Leaving the

wall on the back during the Freestyle portion is permissible but no kicking action is permitted until the Athlete has returned past the vertical to the breast at which point kicking, including a Butterfly kick(s), may commence.

11.6.1.1 In the 150 metre and 75 metre individual Medley Events, the Athlete covers three (3) swimming strokes in the following order: Backstroke, Breaststroke and Freestyle. Each of the strokes must be used for one third (1/3) of the total distance. Leaving the wall on the back during the Freestyle portion is permissible but no kicking action is permitted until the Athlete has returned past the vertical to the breast at which point kicking including a Butterfly kick(s) may commence.

11.6.2 In Medley Relay Events, Athletes will cover the four (4) swimming strokes in the following order: Backstroke, Breaststroke, Butterfly and Freestyle. Each of the strokes must be used for one quarter (1/4) of the total distance.

11.6.3 In Freestyle the Athlete must remain on their breast except when executing a turn. After executing a turn, an Athlete must return to their breast before executing any kick or stroke. For the purposes of this Rule the position on the breast may include a roll movement of the body up to, but not including ninety (90) degrees from horizontal. The position of the head is not relevant.

11.6.4 Each section must be finished in accordance with the Rules which apply to the stroke concerned.

11.7 RELAYS

11.7.10 In Relay Events, the team of an Athlete whose feet/part of the body loses contact with the starting platform before the preceding team member touches the wall shall be disqualified.

11.7.10.1 In a Relay Event an Athlete may commence in the water. The Athlete may not lose contact with the starting place until such time as the preceding team member touches the wall otherwise the team Athlete shall be disqualified.

11.7.11 Any Relay team shall be disqualified from an Event if a team member, other than the Athlete designated to swim that length, enters the water when the race is being conducted before all Athletes of all teams have finished the race.

11.7.11.1 An Athlete in a Relay Event who is to commence with a water start may enter the water only when the preceding takes off at the same end has been executed.

11.7.12 The Tapper may convey to the Athlete the relay changeovers and convey the position/place of the relay. An extra Tapper may be required, one for tapping the Athlete completing the leg of the relay and one Tapper for conveying the changeover. No coaching is permitted.

11.7.13 Any Athlete having completed their leg in a Relay Event, must exit the pool as soon as possible without obstructing any other Athlete(s) who has not yet finished their leg.

11.7.13.1 Athletes in Sport Classes S/SB1-5 may remain in their lanes until the last Athlete of each team has completed the race. An Athlete remaining in the water shall position themselves away from the end of the pool, close to the lane rope but shall not obstruct any other Athlete in another lane.

11.7.14 During Relay exchanges, running starts from the pool deck are not permitted. It is not permitted for Athletes to place either foot on the block behind the moveable backplate or to place one or both feet on top of the moveable backplate.

11.8 THE RACE

11.8.1 All individual races must be held as separate gender Events.

11.8.2 An Athlete swimming over the course alone shall cover the whole distance to qualify. An Athlete who does not complete the whole distance in accordance with the relevant Rules shall be disqualified.

11.8.3 Subject to the following Rules, an Athlete must remain and finish the race in the same lane in which they started.

11.8.3.1 If an Athlete with a Vision Impairment, who has a Tapper for that Event, surfaces in a lane not in use, the Athlete shall be permitted to complete the race in that lane.

11.8.3.2 If the Athlete with a Vision Impairment surfaces in a lane that is in use, it is preferable for the Athlete to return to the correct lane. The Tapper may give verbal instructions, but only after clearly identifying the Athlete by name to prevent distraction or interference to other Athletes. If the Athlete finishes the race in an occupied lane without a foul, their result will be valid.

Interpretation: The following table assists to clarify Rules 11.8.3, 11.8.3.1 and 11.8.3.2

Athlete with a Tapper	11.8.3.1	Surfaces in an empty lane	No DSQ
	11.8.3.2	Surfaces in a lane in use, should try to get back, but will not be penalized if unable to do so.	No DSQ
		Surfaces in a lane in use, fouls the other Athlete.	See 11.8.7.1

Athlete without a Tapper	11.8.3	Completes swim in their own lane	No DSQ
	11.8.3	Surfaces in another lane	DSQ

11.8.4 In all Events, an Athlete, when turning, shall make physical contact with the end of the pool or course. The turn must be made from the wall and it is not permitted to take a stride or step from the bottom of the pool.

11.8.5 Pulling on the lane rope is not permitted.

11.8.6 Obstructing another Athlete by swimming across another lane or otherwise interfering shall disqualify the offender. Should the foul be deemed intentional by the Referee, the Referee shall report the matter to the NPC(s) of the affected Athlete(s), to World Para Swimming and to the NPC of the offending Athlete.

11.8.7 Should a foul jeopardize the chance of success of an Athlete, the Referee shall have the power to allow the Athlete whose race was jeopardised to compete in the next heat or, should the foul occur in a final Event or in the last heat, the Referee may order it to be re-swum.

11.8.7.1 For Athletes with a Vision Impairment, should an accidental foul occur during a race, caused by an Athlete either surfacing after the start or turn, in a lane that is in use by another Athlete, or by swimming too close to the lane rope, etc., the Referee shall have the power to allow one (1) or all Athletes to re-swim the event.

11.8.8 Athletes in Sport Classes S11, SB11 and SM11 except for those with prosthetics in both eyes shall be required to wear opaque (blackened in) goggles for competition. Athletes in Sport Classes S11, SB11 and SM11 whose facial structure will not support goggles shall be required to cover the eyes with an

opaque covering. The goggles of Athletes in Sport Classes S11, SB11 and SM11 shall be checked at the finish of the relevant Event.

11.8.8.1 If the goggles accidentally fall off during the dive or break during the race, the Athlete shall not be disqualified.

11.8.9 No Athlete shall be permitted to use or wear any device or swimsuit that may aid their speed, buoyancy or endurance during a Competition (such as webbed gloves, flippers, fins, power bands or adhesive substances, etc.). **No watches, wearable technology, communication or data collection devices may be worn.** Goggles may be worn. Any kind of strapping or improper use of swimwear that limits unwanted movement is prohibited. Taping on the body is not permitted unless approved under regulation 6.6.2.

11.8.9.1 No Athlete shall be permitted to use a prosthesis (except ocular), or orthoses during the race.

11.8.9.2 The wearing of cochlear implants and insulin pumps is permitted.

11.8.10 Any Athlete not entered in an Event, who enters the water while a race is being conducted before all Athletes therein have completed the race, shall be disqualified from their next scheduled Event.

11.8.11 Any Athlete having finished their race may leave the pool as soon as possible without obstructing any other Athlete who has not yet finished their race.

11.8.12 At the completion of each race, the Referee shall signal to the Athletes by way of two (2) short whistle blasts that they are required to clear the water.

11.8.13 No pace making shall be permitted, nor may any device be used or plan adopted which has that effect.

11.8.14 If an error by a Technical Official follows a fault by the Athlete, the fault by the Athlete may be expunged by the Referee.

APPENDIX TWO: FACILITIES

1.1.6 Mats shall be placed on the pool deck beside the outside lanes, within one (1) metre of each end of the pool. Each mat shall be a minimum of one (1) metre wide and two (2) metres in length.

Note: Mats are used for lower classes to prevent abrasion when Athletes are exiting/entering the pool.
